

Automated skewer system.
As from 500,000 skewers per season.

MIVEG

SMART SKEWER SYSTEMS

SKEWER SYSTEM 4080

Vegetable skewer

Chicken skewer

Meat skewer

Food Industry

Convenience

MEET YOUR PRODUCTION TARGET. UP TO 5 MILLION KEBABS PER SEASON.

Patented skewer feeder

SKEWER SYSTEM 4080.

No matter whether meat, poultry, minced meat, cheese, fish or vegetables - the System 4080 from MIVEG enables you to produce up to 4080 ready made skewers per hour. All looking like handmade, using only 2-8 employees.

Unique cavity system

Output according to plan.

Freely adjustable cycle times to meet your production plan reliably. **Selectable production rate** from 8-68 skewers/minute, depending on the skewer product. MIVEG guarantees **optimal output** due to its patented skewering system.

Intelligent computer control system

Modular system.

Can be upgraded to a production line with modular extensions such as **automated loading and unloading** or **Clean in Place Module**.
